GAGGIA. THE TRADITIONAL GROUP,
SOLENOID VALVE AND FILTER
HOLDER ENSURE TOTAL CONTROL,
AND THE PROFESSIONAL STEAM
WAND ALLOWS YOU TO MAKE A
PERFECT MILK FROTH FOR YOUR
CAPPUCCINOS. STYLISHLY DESIGNED
AND TOTALLY MADE IN ITALY.**

HIGHLIGHTS & FEATURES

PROFESSIONAL CHROMED BRASS GROUP AND FILTER-HOLDER

Same style, size, ring and way of working as a professional machine, thus the perfect driver of great in cup quality.

The heavy chromed brass group and filter-holder ensure a consistent and stable temperature throughout entire brewing process.

SOLENOID VALVE

The three-way Solenoid Valve relieves pressure in the filter-holder immediately after pulling a shot.

Water empties from the filter-holder via the open valve and ends up in the drip tray. This leaves the coffee pucks relatively dry, making it easy to clean.

TRADITIONAL GAGGIA BOILER

Secures great espresso quality thanks to the excellent temperature stability during the whole brewing process.

The 15 bar pump pushes the hot water through the ground coffee at high pressure to ensure better-tasting crema-topped espresso.

PROFESSIONAL STEAM WAND WITH 2 STEAM OUTLETS

The perfect way to froth the milk and have a traditional creamy cappuccinos at home like in an Italian bar.

NEW INTUITIVE USER INTERFACE

The traditional rocker-buttons and indicator lights for on/off, espresso preparation and steam dispensing allow you a total control of the functions.

DESIGN DETAILS

The new design is thought to further enrich your home barista experience: new side shape that makes the water level visible, a renovated drip tray to improve stability during the brewing process, and an iconic filter-holder with the signature Gaggia "G".

3 FILTERS FOR GROUND COFFEE AND POD

Gaggia Classic comes with 3 filters:

1 "crema perfetta" filter for 1 or 2 cups helps you to have a perfect espresso just from the first use; while 2 traditional filters ensure you a professional experience.

CUP HOLDER

This practical feature allows you to store your espresso cups and glasses on top of the espresso machine itself – always within reach and conveniently stored without taking up space.

PROUDLY MADE IN ITALY

Guarantee of premium quality and a neverending passion for espresso making, year after year.

CLASSIC

The Gaggia Classic is available in a stainless steel finish.
No other colours, no other finishes. It's a classic.
